

Catalogs

Global Catalog

By default, the catalog module will display a frontend list of all the available courses, and users will be able to self-subscribe or buy courses, depending on each course status and settings.

Activate the catalog

You can activate the catalog view by enabling the “Course Catalog” label in:

Admin > Settings > Elearning Configuration > User Area LMS

Catalog Settings

The behavior of the catalog module can be configured in

Admin > Settings > System Configuration > Settings > Elearning

General Settings

Home page

My courses

▼

- ☐ Send user to catalog if not enrolled in any course
- ☐ Show learning courses belonging to learning path in "My courses tab"

Courses sorting order in "My courses"

Multiple Catalogs Management

Multiple catalogs Management features are located under:

Admin > Elearning > Courses > Catalogs

Course catalog

[New catalog](#)

Name	Description	1	2	3		
Compliance Courses	Compliance courses for internal employees					
Product Courses	Product courses for clients and support training					
Sales Catalog	Courses for agents and external sales people					

[New catalog](#)

Add Courses

Use this feature to assign courses to this catalog

Assign users

Use this feature to assign users that will be able to view this catalog. You can select:

- Multiple individual users
- Orgchart nodes
- Company roles

Subscribe users

Select users to be automatically assigned to all the courses in the selected catalog

Frontend View

If you use multiple catalogs, each assigned to a node or branch, each user will be displayed the catalog related to the node he is assigned to.
