

Enrolment Rules

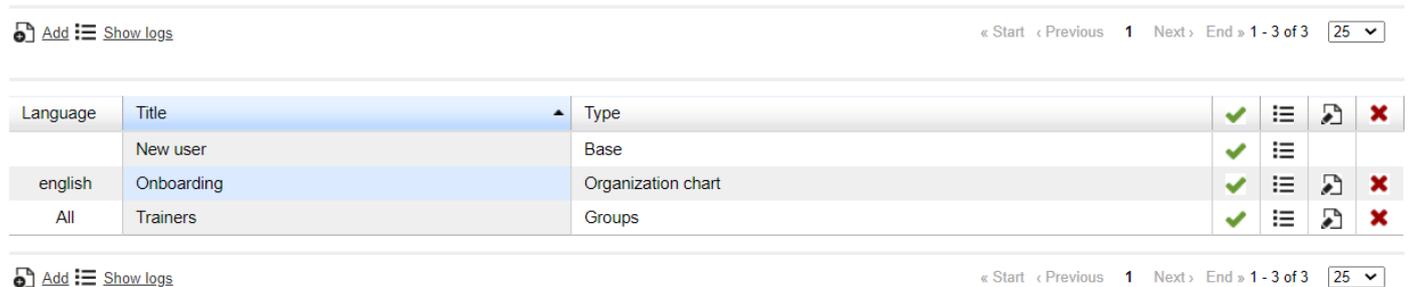

Overview

With the enroll rules feature, it is possible to create automatic subscription rules based on different criteria.

You can set the enroll rules from:

Admin > Elearning > Enroll Rules

Enrollment rules

The screenshot shows the 'Enrollment rules' interface. At the top, there are navigation links: 'Add', 'Show logs', '« Start', '< Previous', '1', 'Next >', 'End » 1 - 3 of 3', and a dropdown menu set to '25'. Below this is a table with the following data:

Language	Title	Type	✓	☰	📄	✗
	New user	Base	✓	☰		
english	Onboarding	Organization chart	✓	☰	📄	✗
All	Trainers	Groups	✓	☰	📄	✗

At the bottom of the table, there are the same navigation controls as at the top.

Adding Rules

When you add a new rule, you can set:

Title: a name for the rule

Language: the rule will apply only for users with the same language set for their profile, or for all users

Type: set the main criteria for selecting the users to apply this rule to. It won't be possible to change the rule type once it is saved. You can select users based on their:

- Orgchart Node
- Group
- Company Role

Managing Rules

Click on this icon to manage the rule:

Selecting Users

You will be able to select the nodes, groups, or company roles to apply this rule to, based on the type of rule chosen upon creation.

When the rule is active, all the users added to the selected node, group, or role will be automatically subscribed to some course.

Note:

Rules will automatically apply automatically only to users added to the selected nodes/groups/roles after its creation. To apply the rule also to users already within the selected criteria, see the "apply rule" button below

Selecting Courses

Here, you can select the courses to automatically enroll users. You can set different courses for each of the nodes, groups, or roles you selected

Applying the Rule

Click this button to automatically enroll all the existing users based on the selected criteria.

Logs

In this page you will see a list of all the applied rules. It will be possible to:

- Check a list of all the users subscribed through the rule
- Rollback the subscription, in case the rule was applied by mistake
