

# Gradebook

**REMOVED:** this feature has been deprecated and removed since Forma LMS 4.2, replaced by the new **Course Report module**

The gradebook is one of the most important and useful course features, used to manage all the evaluation activities in a course:

- Test Learning Objects
- SCORM objects with score
- Classroom activities

## Overview

## GRADE BOOK

Pre-Assessment

Stats for question "What is Forma LMS?"	
	Percentage
✓ A Learning Management System (LMS)	100.00%
No answers	0.00%

Stats for question "Can Forma manage test and assessments?"	
	Percentage
✓ YES	50.00%
NO	50.00%
No answers	0.00%

Stats for question "Is Forma SCORM compliant?"	
	Percentage
No answers	100.00%

# Edit test gradebook options

Use the "Edit" icon for each test to see a list of the scores for all the user. You will also be able to:

Configure:

- **Weight** of the test score in the final score calculation
- **Show or hide the test score** in user ratecard
- **Use or ignore the test score** in the final score calculation

Plus, for each user you can

- View and edit the final score
- View the full test execution (see below)
- Edit the execution date
- Add a comment to be displayed on user scorecard
- Cancel last execution, so the user can take the test again

# Add a new activity

Here, you can also manually add more scores to be calculated for the final course score:

- **Activity:** record user evaluation score for external activities, not done directly in the platform
- **SCORM Results:** is a SCORM object has some test, here you can add it to the gradebook
