

# Privacy Policies

## Default Privacy Policy

By default, users will be required to accept a privacy policy statement both on login and registration.

The default privacy policy text is defined in language management:

*Admin > Settings > Language Management*

This option can be disabled from:

*Admin > System configuration > Settings > User > Register*

## Privacy Management

Alternatively, you can set a new Privacy Statement from the Privacy Management:

*Admin > Setting > System configuration > Privacy Policy*
