

Privacy Policies

Default Privacy Policy

By default, users will be required to accept a privacy policy statement both on login and registration.

The default privacy policy text is defined in language management:

Admin > Settings > Language Management

This option can be disabled from:

Admin > System configuration > Settings > User > Register

Privacy Management

Alternatively, you can set a new Privacy Statement from the Privacy Management:

Admin > Setting > System configuration > Privacy Policy

Privacy Policies

Search 

 [Add](#)

« Start < Previous **1** Next > End » 1 - 2 of 2

Name			
Default Privacy Policy			
My New Policy			

 [Add](#)

« Start < Previous **1** Next > End » 1 - 2 of 2

Edit the default page and flag it as default:

Edit Privacy Policies
