

How to upload and configure the FAQ

After seeing how to create and configure the verification test, let's move on to the detailed description of the loading and configuration of the FAQ within a course.

Go to Front end, click on “My courses” and click on the course title. For example, we will click on the title of the course “Excel”

To configure the material, click on the menu item “Teachers Area / Teaching Objects Management / Course Objects”

The screenshot shows the 'Excel' course interface. At the top, there is a course icon (a laptop with a graduation cap) and the course title 'Excel' with a progress bar at 0%. Below this is a navigation bar with a dropdown menu labeled 'AREA DOCENTI' and a breadcrumb trail: 'Gestione oggetti didattici' > 'Gestione gruppi' > 'Newsletter' > 'Registro valutazioni' > 'Gestisci menu'. The main section is titled 'GESTIONE OGGETTI DIDATTICI' and contains three tabs: 'I miei oggetti', 'Oggetti del corso' (selected), and 'Oggetti condivisi'. Under the 'Oggetti del corso' tab, there is a section labeled 'MATERIALI'. This section contains a table with two rows of materials: 'Excel Aspetti base' and 'Test finale del corso Excel'. Each row has a set of icons on the right for editing and deleting. At the bottom of the materials section, there are buttons for 'Nuova cartella' and 'Nuovo oggetto didattico'.

In the right part of the screen, there are all the icons that allow the different configurations.

Edit icon

By clicking on the “edit” icon it is possible to set most of the configurations of the learning object.

We remind you that to insert the FAQ within the course, it is necessary to click on the menu item “Teachers Area / Learning Objects Management / Course Objects” and click on “New Learning Object” and check the FAQ

 [Aggiungi una faq](#)

Domanda	▼	▲		✕
1) Come posso accedere al test finale?	▼			✕
2) Quante volte posso fruire del test?		▲		✕

Let's take the case, that we decide to change the test procedure, and therefore we want that only 3 attempts can be made. If the learner fails to pass the test, the latter will be blocked and before having the possibility to carry it out for the fourth time, he will have to take advantage of the educational objects that precede it. At this point, in addition to changing the configuration of how the test is used, we should also change the answer of the FAQ. Simply delete the answer previously entered and write the correct one. Remember to click on the button.

Domanda	Quante volte posso fruire del test?
Titolo	Titolo
Parole chiave(separate da virgole)	test, test finale, svolgimento test finale

Risposta

A rich text editor toolbar containing various icons for bolding, italicizing, underlining, bulleted lists, numbered lists, indenting, undo, redo, link, unlink, insert image, and other standard editing functions.

Potrai svolgere il test finale 3 volte. Dopo i 3 tentativi, il test sarà bloccato e avrai la possibilità di rifruire del corso e svolgere nuovamente il test una volta completata la fruizione di tutti gli oggetti didattici.
